STEP 2: Rollback Tax Rate

Most school districts calculate a rollback tax rate that is split into two acparate rates:

- Maintenance and Operations (M&O): School districts must use the lesser amount of the following methods to calculate the M&O rate:
 Four cents (\$0.04) PLUS current year's compression rate multiplied by \$1.50 (usually \$1) PLUS any additional cents approved by voters at a 2006 or subsequent rollback election; OR
- Current year's compression rate multiplied by six cents (usually four cents) PLUS affective M&O rate which includes school formula funding calculations.

 2. Debt: The debt tax rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds. and other debt secured by property tax revenue.

In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a school district's debt service will cause the effective tax rate to be higher than the rollback tax rate.

25. Maintenance and operations (M&O) tax rate. Enter \$1.50 OR the 2005 adopted M&O rate if voters approved a rate higher than \$1.50. 26. Multiply line 25 times 0.6667 27. 2018 rollback M&O rate.
